

Indications and Uses: Recotor Gold 10/20 is indicated for:

- Management of high cholesterol and triglyceride levels in the blood.
- Prevention of heart attacks and strokes in patients with cardiovascular disease.
- Reducing the risk of blood clots in patients with a history of myocardial infarction or other forms of heart disease.

Dosage and Administration:

- The usual recommended dosage is one capsule/tablet daily, taken with or without food, or as prescribed by your healthcare provider.
- It is important to follow your doctor's instructions regarding the duration of treatment.

Common Side Effects:

- Nausea
- Stomach pain
- Headache
- Dizziness

Less Common Side Effects:

- Muscle pain or weakness
- Allergic reactions (rash, itching)
- Increased liver enzymes
- Unusual bleeding or bruising

Warnings and Precautions:

- Do not exceed the recommended dosage.
- Inform your doctor of any other medications or supplements you are taking.

- If you experience muscle pain, weakness, or unusual bleeding, discontinue use and consult your doctor immediately.
- Use in pregnant or breastfeeding women should be based on a careful assessment by the healthcare provider.

Drug Interactions:

- Recotor Gold 10/20 may interact with certain medications such as anticoagulants, other antiplatelet drugs, and statins. Always inform your healthcare provider about any other medications you are taking.

Contraindications:

- Hypersensitivity to Rosuvastatin, Aspirin, Clopidogrel, or any other components of the product.
- Patients with active bleeding or a history of bleeding disorders.
- Severe liver impairment or liver disease.

Dos and Don'ts: Dos:

- Take the medication as directed by your healthcare provider.
- Inform your doctor if you have any existing medical conditions, such as kidney or liver issues.

Don'ts:

- Do not take more than the recommended dose.
- Avoid consuming alcohol while taking this medication, as it may increase the risk of liver damage.

Before Taking Recotor Gold 10/20:

- Discuss your complete medical history with your doctor, including any allergies or existing health conditions.
- Inform your doctor if you are pregnant, planning to become pregnant, or are breastfeeding.

Disclaimer: This information is provided for educational purposes only and should not be used for self-medication. Always consult your doctor for appropriate medical advice and treatment. Do not alter the dosage prescribed by your healthcare provider.
