

## BLOCEF-200 TAB

Econ Healthcare Pvt Ltd

---

### General Information

**BLOCEF-200 TAB** is a high-quality product from **Econ Healthcare Pvt Ltd**, containing **Cefpodoxime Dispersible 200 mg**. Cefpodoxime is a third-generation cephalosporin antibiotic, designed to treat a wide range of bacterial infections by inhibiting bacterial cell wall synthesis. BLOCEF-200 is specifically formulated for enhanced absorption, making it effective in combating infections.

---

### Drug Class

- **Cefpodoxime:** Third-generation cephalosporin antibiotic

---

### Indications and Uses

BLOCEF-200 TAB is indicated for the treatment of bacterial infections such as:

- Respiratory tract infections (e.g., bronchitis, pneumonia)
- Urinary tract infections (UTIs)
- Skin and soft tissue infections
- Tonsillitis and pharyngitis
- Otitis media (ear infections)
- Sinusitis
- Uncomplicated gonorrhea

This medication is effective against a broad spectrum of bacteria, providing reliable results in bacterial infection management.

---

### **Common and Less Common Side Effects**

#### **Common Side Effects**

- Nausea
- Diarrhea
- Vomiting
- Abdominal discomfort

#### **Less Common Side Effects**

- Headache
- Dizziness
- Skin rash or itching
- Fatigue
- Vaginal yeast infection

If any severe side effects or allergic reactions (such as swelling, difficulty breathing, or severe skin rash) occur, discontinue use and consult your doctor immediately.

---

### **Doses and Administration**

- **Dosage:** Follow your doctor's prescription. Typically, BLOCEF-200 is taken twice daily with or without food.
  - **Administration:** Disperse the tablet in a small amount of water and consume immediately. Do not chew or swallow the tablet whole unless directed by your doctor.
-

## Warnings and Precautions

- Patients with a history of allergy to cephalosporins or penicillins should avoid BLOCEF-200.
  - Use with caution in patients with kidney or liver impairment.
  - Pregnant and breastfeeding women should use this medication only under medical supervision.
  - Avoid missing doses to ensure the effectiveness of the treatment.
- 

## Drug Interactions

Inform your doctor about all the medications you are taking, including:

- Antacids (may reduce the absorption of Cefpodoxime).
  - Blood thinners (e.g., warfarin).
  - Other antibiotics (to avoid reduced efficacy or resistance).
  - Probenecid (may increase Cefpodoxime levels in the blood).
- 

## Contraindications

- Hypersensitivity to Cefpodoxime or any other cephalosporin antibiotics.
  - Patients with severe allergies to penicillins (due to cross-reactivity).
  - Severe gastrointestinal conditions like colitis.
- 

## Dos and Don'ts

### Dos

- Complete the full course of therapy as prescribed, even if symptoms improve.
- Store the medication in a cool, dry place away from direct sunlight and out of reach of children.
- Inform your doctor of any allergies or medical history.

### Don'ts

- Do not skip doses or stop the medication prematurely without consulting your doctor.
  - Avoid alcohol during treatment as it may increase the risk of side effects.
  - Do not use this medication for viral infections like the common cold or flu.
- 

## Before Taking BLOCEF-200 TAB

- Inform your doctor if you have a history of kidney or liver disease, gastrointestinal disorders, or allergies.
  - Let your doctor know about all ongoing medications, supplements, or herbal products you are taking.
  - Discuss any plans for pregnancy or breastfeeding with your healthcare provider before starting the medication.
- 

#### **Disclaimer**

This information is for educational purposes only and should not replace medical advice. Always use BLOCEF-200 TAB under the guidance of your doctor. Do not alter or stop the prescribed dosage without consulting a healthcare professional.
