

Brand Name: CZONE-DS 3MG INJ

Composition: Cefoperazone Sodium 2 gm + Sulbactam Sodium 1 gm

General Information:

CZONE-DS 3MG INJ is a combination of Cefoperazone, a third-generation cephalosporin antibiotic, and Sulbactam, a beta-lactamase inhibitor. This combination enhances the effectiveness of the antibiotic by preventing bacterial resistance, making it a powerful treatment for a wide range of bacterial infections.

Drug Class:

- **Cefoperazone:** Third-generation cephalosporin antibiotic
- **Sulbactam:** Beta-lactamase inhibitor

Indications and Uses:

CZONE-DS 3MG INJ is indicated for the treatment of:

- Respiratory tract infections
- Urinary tract infections
- Skin and soft tissue infections
- Intra-abdominal infections
- Septicemia

- Gynecological infections

Common and Less Common Side Effects:

- **Common Side Effects:** Nausea, diarrhea, rash, and injection site reactions.
- **Less Common Side Effects:** Allergic reactions, dizziness, fever, and elevated liver enzymes.

Doses and Administration:

- Administered via intravenous or intramuscular route under medical supervision.
- The dosage depends on the patient's medical condition, age, and severity of the infection.

Warnings and Precautions:

- Use with caution in patients with liver or kidney disorders.
- Avoid alcohol during and for 72 hours after treatment to prevent adverse reactions.
- Regular monitoring of liver and kidney function is recommended.

Drug Interactions:

- May interact with anticoagulants and aminoglycosides, enhancing their effects.
- Inform your doctor about any other medications you are taking.

Contraindications:

- Hypersensitivity to cefoperazone, sulbactam, or any cephalosporin antibiotics.

Dos and Don'ts:

- **Do:** Follow your doctor's prescription strictly. Complete the full course of treatment.
- **Don't:** Do not skip doses or stop treatment without consulting your doctor.

Before Taking:

- Inform your doctor about any history of allergies, liver or kidney disorders, or other medical conditions.
- Discuss all current medications, including supplements and herbal remedies.
