Manufactured by: Mascot Health Series Pvt. Ltd.
At-Plot No. 52, Sec-6A, IIE, Sidcul,
Haridwar-249403, Uttarakhand.

Brand Name: DAPACOOOL-GM 1 TAB

Composition: Dapagliflozin 10 mg, Glimepiride 1 mg, Metformin 500 mg

General Information

DAPACOOOL-GM 1 TAB is an advanced oral anti-diabetic medication that combines three active agents to effectively manage **Type 2 Diabetes Mellitus**.

1. **Dapagliflozin** (SGLT2 inhibitor): Promotes the removal of excess glucose through urine.
2. **Glimepiride** (Sulfonylurea): Enhances insulin secretion from the pancreas.
3. **Metformin** (Biguanide): Reduces glucose production in the liver and improves insulin sensitivity.

This triple-combination therapy is ideal for patients who require additional glycemic control beyond diet, exercise, and monotherapy.

Indications and Uses

- Management of **Type 2 Diabetes Mellitus** in adults.
 - Helps control blood sugar levels when single or dual therapy is insufficient.
 - Reduces the risk of long-term complications of diabetes, such as cardiovascular issues.
-

Common and Less Common Side Effects

Common Side Effects:

- Low blood sugar (hypoglycemia).
- Gastrointestinal discomfort (nausea, diarrhea, or bloating).
- Increased urination due to glucose excretion.

Less Common Side Effects:

- Dizziness or dehydration.
 - Rare urinary tract infections.
 - Lactic acidosis (a rare but serious side effect of Metformin).
-

Doses and Administration

- Take **one tablet daily** or as prescribed by your doctor.
 - Administer orally with or after meals to minimize stomach upset.
 - Ensure consistent use and avoid skipping doses.
-

Warnings and Precautions

- Regularly monitor your blood sugar levels.
 - Stay hydrated to prevent dehydration caused by increased urination.
 - Avoid alcohol consumption to reduce the risk of lactic acidosis or hypoglycemia.
 - Use cautiously in patients with kidney, liver, or heart conditions.
-

Drug Interactions

- May interact with other diabetes medications, diuretics, or corticosteroids.
 - Inform your doctor if you are taking blood pressure medications or any herbal supplements.
-

Contraindications

- Not suitable for patients with **Type 1 Diabetes** or diabetic ketoacidosis.
 - Avoid in cases of severe kidney or liver impairment.
 - Do not use if allergic to any of the active ingredients.
-

Dos and Don'ts

Dos:

- Follow your doctor's advice on diet, exercise, and medication.
- Report unusual symptoms like dizziness or persistent nausea to your doctor.
- Maintain regular follow-ups with your healthcare provider.

Don'ts:

- Do not self-adjust your dose without consulting a doctor.
 - Avoid skipping meals or taking extra doses.
 - Do not share your medication with others, even if they have similar symptoms.
-

Before Taking DAPACOL-GM 1 TAB

- Inform your doctor about any pre-existing medical conditions, especially kidney, liver, or heart problems.
 - Share a list of all current medications, supplements, or herbal remedies with your doctor.
 - Pregnant or breastfeeding women should consult their doctor before using this medication.
-
