Product Information Page

Brand Name: ECONATE-60 INJ

Composition: Artesunate 60 mg

General Information

ECONATE-60 INJ is a fast-acting antimalarial medication that contains Artesunate 60 mg, a derivative of artemisinin. Artesunate is highly effective in treating severe malaria caused by *Plasmodium falciparum*. This product is manufactured with precision and high-quality standards by Econ Healthcare Pvt Ltd to ensure safety and efficacy.

Class

Artesunate belongs to the class of antimalarial agents known as artemisinin derivatives.

Indications and Uses

- Treatment of severe malaria caused by *Plasmodium falciparum*.
- Can be used in situations where oral therapy is not feasible or effective.

- Often part of combination therapy to prevent resistance.
-

Common and Less Common Side Effects

Common Side Effects:

- Nausea
- Vomiting
- Dizziness
- Fatigue

Less Common Side Effects:

- Low blood pressure
 - Abnormal heart rate
 - Anemia
 - Allergic reactions (rash, itching)
-

Doses and Administration

- Administered by intramuscular or intravenous injection as directed by a healthcare professional.
 - Dosage depends on the severity of the condition, age, and weight of the patient.
 - Follow the prescribed course even if symptoms improve early.
-

Warnings and Precautions

- Monitor for signs of allergic reactions or hypersensitivity.
 - Not recommended for long-term malaria prevention.
 - Use with caution in patients with a history of liver or kidney impairment.
 - May cause low blood sugar; regular monitoring is advised.
-

Drug Interactions

- May interact with other antimalarial drugs.
 - Avoid combining with medications that prolong the QT interval.
 - Inform your doctor about all ongoing medications to avoid interactions.
-

Contraindications

- Hypersensitivity to Artesunate or any of its components.
 - Not recommended during the first trimester of pregnancy unless deemed essential by a doctor.
-

Dos and Don'ts

Dos:

- Complete the full course of treatment as prescribed.
- Store in a cool, dry place away from direct sunlight.
- Inform your doctor about any pre-existing conditions.

Don'ts:

- Do not self-administer; it must be administered by a healthcare professional.
 - Avoid alcohol consumption during treatment.
 - Do not skip doses or discontinue without consulting your doctor.
-

Before Taking ECONATE-60 INJ

- Inform your doctor if you are pregnant, breastfeeding, or planning to conceive.
 - Discuss any medical history, including liver or kidney issues.
 - Ensure your doctor knows about all medications, supplements, and herbal products you are taking.
-
