- Metallic taste.
- Fatigue or weakness.

Dosage and Administration:

- The dosage of ECOVOG-GM2 TAB should be determined by your doctor based on your individual needs.
- Typically taken once or twice daily with meals to minimize gastrointestinal discomfort.
- Do not alter the dosage or frequency of use without consulting your doctor.

Warnings and Precautions:

- Monitor blood sugar levels regularly while using this medication.
- May cause hypoglycemia, especially if taken with other antidiabetic medications or if meals are skipped.
- Use caution in patients with kidney or liver problems.
- Not recommended for use in people with type 1 diabetes or diabetic ketoacidosis.
- Should be used with caution in elderly patients and those with heart disease.

Drug Interactions:

- May interact with other antidiabetic medications, blood pressure medications, and certain antibiotics.
- Always inform your doctor about any other medications you are taking.

Contraindications:

- Contraindicated in patients with hypersensitivity to any of the ingredients.
- Not recommended for use in patients with severe kidney or liver disease, or acute diabetic complications such as ketoacidosis.

Dos and Don'ts:

- **Do** take the medication as prescribed by your doctor.
- **Do** monitor blood sugar levels regularly.
- **Do not** exceed the recommended dose.

- **Do not** stop the medication without consulting your doctor, even if you feel well.
- **Do not** consume alcohol excessively while using this medication.

Before Taking ECOVOG-GM2 TAB:

- Inform your doctor if you have a history of kidney or liver disease, heart problems, or any other serious medical conditions.
- Let your doctor know if you are pregnant, planning to become pregnant, or breastfeeding.
- Consult your healthcare provider before using this medication if you are taking other medications, including over-the-counter drugs and supplements.

Disclaimer:

This is general information about ECOVOG-GM2 TAB. Always follow your doctor's guidance on the proper use of this medication. Do not change the prescribed dose or discontinue the medication without consulting your doctor.
