## EMEZOLE-20 TAB

**Brand Name:** EMEZOLE-20 TAB

**Contains:** Omeprazole Magnesium 20mg

---

### General Information:

EMEZOLE-20 TAB is a medication that contains Omeprazole Magnesium, a proton pump inhibitor (PPI) used to treat various gastrointestinal conditions. It works by reducing the amount of acid produced in the stomach, which helps to relieve symptoms of acid reflux and allows healing of damaged tissues in the stomach and esophagus.

---

### Class:

Proton Pump Inhibitor (PPI)

---

### Indications and Uses:

EMEZOLE-20 TAB is commonly prescribed for the treatment of:

- Gastroesophageal reflux disease (GERD)
- Peptic ulcers (gastric and duodenal ulcers)
- Zollinger-Ellison syndrome (a condition where the stomach produces too much acid)

- Helicobacter pylori infection (in combination with antibiotics for ulcer healing)
- 

**Common Side Effects:**

- Headache
  - Abdominal pain
  - Diarrhea
  - Nausea and vomiting
  - Constipation
- 

**Less Common Side Effects:**

- Dizziness
  - Flatulence
  - Skin rash
  - Fatigue
  - Increased liver enzymes
- 

**Dosage and Administration:**

EMEZOLE-20 TAB should be taken as directed by your doctor. It is typically taken once daily, preferably before a meal. The tablet should be swallowed whole with a glass of water and should not be crushed or chewed.

---

**Warnings and Precautions:**

- If you have liver disease or are taking other medications, inform your doctor before starting treatment.
  - Prolonged use may increase the risk of bone fractures, kidney problems, or vitamin B12 deficiency.
  - Caution is advised in patients with a history of gastritis or heartburn.
  - It is important to not suddenly stop the medication without consulting your doctor.
  - Seek medical help if you experience any unusual or severe side effects.
- 

**Drug Interactions:**

EMEZOLE-20 TAB may interact with other medications, including:

- Antifungal drugs
- Blood thinners (e.g., warfarin)
- Certain antibiotics
- HIV/AIDS medications
- Medications for seizures (e.g., phenytoin)

Always inform your doctor of all medications you are currently taking.

---

#### **Contraindications:**

- Hypersensitivity to Omeprazole or any of the components of the tablet
  - Severe liver impairment
  - Children under the age of 18 (unless prescribed by a doctor)
- 

#### **Dos and Don'ts:**

- **Do:**
    - Take the medication as prescribed.
    - Follow your doctor's advice regarding diet and lifestyle changes.
    - Inform your healthcare provider if you have any allergies or pre-existing conditions.
  - **Don't:**
    - Do not exceed the prescribed dosage.
    - Do not stop taking the medication abruptly without consulting your doctor.
    - Avoid alcohol while taking this medication.
- 

#### **Before Taking EMEZOLE-20 TAB:**

Before starting EMEZOLE-20 TAB, make sure to:

- Inform your doctor if you are pregnant, planning to become pregnant, or breastfeeding.
  - Discuss any existing medical conditions, especially liver disease, with your doctor.
  - Inform your doctor about any other medications you are taking, including over-the-counter drugs and supplements.
-
