

**Brand Name:** EMEZOLE-D CAP

**Composition:** Each capsule contains Omeprazole 20 mg + Domperidone 10 mg

**General Information:**

EMEZOLE-D CAP is a combination of Omeprazole and Domperidone, designed to provide effective relief from acid reflux, gastric discomfort, and nausea. Omeprazole is a proton pump inhibitor (PPI) that reduces stomach acid, while Domperidone is a dopamine antagonist that helps in relieving nausea and improving stomach motility.

**Class:**

- Omeprazole: Proton Pump Inhibitor (PPI)
- Domperidone: Antiemetic and Prokinetic Agent

**Indications and Uses:**

EMEZOLE-D CAP is used to treat:

- Gastroesophageal reflux disease (GERD)
- Acid reflux and heartburn
- Nausea and vomiting associated with gastric conditions
- Dyspepsia (indigestion)
- Functional dyspepsia (abnormal stomach discomfort)
- Gastric ulcers and ulcers caused by non-steroidal anti-inflammatory drugs (NSAIDs)

**Common Side Effects:**

- Headache
- Diarrhea or constipation
- Stomach pain or discomfort
- Dry mouth
- Dizziness

**Less Common Side Effects:**

- Skin rash or itching
- Sleep disturbances
- Weight gain or loss
- Increased liver enzymes

**Doses and Administration:**

- The recommended dose of EMEZOLE-D CAP is one capsule taken once daily before a meal, or as directed by your healthcare provider.
- Do not exceed the prescribed dose.

**Warnings and Precautions:**

- Use with caution in patients with liver impairment.
- Not recommended for long-term use unless advised by a doctor.
- Discontinue use if any signs of allergic reaction, such as rash or swelling, occur.
- Consult your doctor before use if you are pregnant, planning to become pregnant, or breastfeeding.
- Do not use in children under 12 years of age.

**Drug Interactions:**

- May interact with warfarin, diazepam, and phenytoin.
- Antacids may reduce the effectiveness of Omeprazole.
- Inform your doctor of all other medications you are taking, including over-the-counter drugs and herbal supplements.

**Contraindications:**

- Hypersensitivity to Omeprazole, Domperidone, or any other ingredients of the product.
- Patients with a history of gastrointestinal bleeding or mechanical obstruction.

**Dos and Don'ts:**

**Do:**

- Take the medication exactly as prescribed by your healthcare provider.

- Follow a healthy lifestyle, including diet and exercise, to complement the treatment.
- Don't:**
- Do not exceed the recommended dose.
  - Do not take the medication if you are allergic to any of its components.
  - Avoid alcohol while using the product, as it may interfere with the medication's effects.

**Before Taking:**

- Inform your doctor if you have a history of liver disease, kidney disease, or heart problems.
- Notify your doctor if you are currently pregnant, planning to become pregnant, or breastfeeding.
