

- Abdominal discomfort
- Diarrhea
- Dizziness
- Headache

Less Common Side Effects:

- Hypoglycemia (low blood sugar)
- Lactic acidosis (a rare, but serious condition)
- Allergic reactions (rash, itching, swelling)

Dosage and Administration:

- **Recommended Dosage:** As prescribed by your doctor. Typically, GIMMY-M2 TAB is taken once daily with meals.
- **Administration:** Take the tablet with water, preferably with food to minimize stomach upset. Follow your doctor's instructions closely.

Warnings and Precautions:

- **Hypoglycemia:** Be cautious of low blood sugar, especially if you miss a meal, exercise excessively, or drink alcohol.
- **Lactic Acidosis:** A rare but serious side effect associated with Metformin. Seek immediate medical attention if you experience unusual fatigue, muscle pain, or difficulty breathing.
- **Kidney and Liver Function:** Monitor kidney and liver function regularly as this medication may not be suitable for individuals with impaired kidney or liver function.
- **Pregnancy and Breastfeeding:** Consult your doctor before taking this medication if you are pregnant or breastfeeding.

Drug Interactions:

- Alcohol can increase the risk of low blood sugar and lactic acidosis.
- Certain medications, like diuretics, corticosteroids, and other anti-diabetic drugs, may interact with GIMMY-M2 TAB. Inform your doctor of all medications you are taking.

Contraindications:

- Hypersensitivity to Glimepiride, Metformin, or any other ingredients in the tablet.
- Severe kidney or liver disease.
- History of lactic acidosis.

Dos and Don'ts:

- **Do:**
 - Monitor your blood sugar levels regularly.

- Follow your doctor's instructions regarding diet and exercise.
- Take the medication as prescribed.
- **Don't:**
 - Skip meals or take the medication on an empty stomach.
 - Drink excessive alcohol while on this medication.
 - Change the dosage without consulting your doctor.

Before Taking GIMMY-M2 TAB:

- Inform your doctor if you are allergic to Glimepiride or Metformin.
- Share your medical history, especially related to kidney or liver disorders, heart disease, and any other ongoing treatments.
- Discuss the use of any other medications, including over-the-counter drugs and supplements.

Quality Assurance:

GIMMY-M2 TAB is a quality product manufactured by **Econ Healthcare Pvt Ltd**, ensuring high standards of production and safety. Always trust in our commitment to providing you with effective and reliable healthcare solutions.
